22) Financial Standing requirements

The traffic commissioner must be satisfied that you have sufficient financial resources to maintain your vehicles and run your business. This requirement is **not** reduced in the case of contract or lease hire vehicles whose maintenance is included in the hire charge.

If you want to increase the number of vehicles in your fleet applicants must provide financial evidence so the traffic commissioner can assess this requirement, as follows:

(Continues on next page)

Availability

The key test in demonstrating financial resources is whether the applicant or operator has available capital and reserves of an amount equal to the sum specified. "Available" is defined as: "capable of being used, at one's disposal, within one's reach, obtainable or easy to get". The three questions an operator needs be able to answer are:

- how much money can the operator find if the need arises?
- how quickly can they find it?
- and where will it come from?

Name(s) on financial evidence supplied

All financial documents should be in the same name as the applicant or licence holder. In the case of partnerships be in the same name(s) as one or both of the applicants or licence holders. In the case of a Limited Company and Limited Liability Partnerships (LLPs) the funds must be held within the company.

The traffic commissioner may allow documents in a different name, but in the case of an individual applicant/operator this must be supported by a statutory declaration signed by the natural person.

For companies, group and cross guarantees will be referred to the traffic commissioner to consider the merits and will require evidence of the financial standing of the guarantor.

The types of evidence listed below are not exhaustive.

Bank statements

You should provide **original** bank or building society statements covering the last three consecutive months. If original bank statements are not available, for instance if you have an online only account, then you may provide printouts that have been signed and stamped by the bank as verification that they show a true reflection of your account. Any such printouts must contain the account holder's name and account number, the name of the bank, and all transactions taking place within the last three months.

Building society accounts will only be acceptable if funds can be drawn down within one month.

Unusually large deposits/withdrawals which have influenced the average balance might lead to further enquiries and a request for an explanation from the applicant/operator. The traffic commissioner might ultimately decide to discount these deposits/withdrawals from the average balance. If there is any doubt as to the source of funds this will be referred to the traffic commissioner.

Credit card accounts (in the same name as the application or licence holder) must be supported by original documents, as with bank statements, to show that over the same three-month period the funds available meet the criteria. Where a credit card account is the sole source of evidence to prove the availability of finance traffic commissioners are entitled to ask why there is no other evidence of banking facilities available.

Overdraft facility

The applicant or operator can supplement the original or certified copies of any bank or building society accounts statements by the use of an overdraft or credit facility. That is an overdraft at their disposal in the sense that there is a balance undrawn before the limit is reached. The facility must be demonstrated by a formal written commitment by the bank, etc. (An offer of such a facility will not suffice.)

The average balance shown in the statements will be calculated, and added to any overdraft or credit facility to show the amount of credit that can be used as proof of financial standing. If the average balance is negative, this will be subtracted from the overdraft limit to find the available finance.

Invoice Finance Agreement

An invoice finance agreement is acceptable, but only if accompanied by:

- confirmation of available balances not drawn down averaged over a 3 month period.
- a copy of the signed agreement from the finance company in which they agree to retain the amount of money needed to meet the definition of financial standing.
- a completed schedule signed on behalf of the finance company. This is available to download at www.businesslink.gov.uk/transport

If you are supplying an invoice finance agreement you must still provide bank statements as detailed above.

Audited accounts – limited companies and Limited Liability Partnerships

These must be certified by a properly qualified person be drawn up clearly and give a true and fair view of the company's assets, liabilities, financial provision and profit or loss.

The items that must comprise the annual accounts are:

- a balance sheet
- that the company is trading profitably (on the profit and loss sheet)
- notes on the account
- a positive ratio of more than 1.0 (when dividing total assets by total liabilities)
- a positive ratio of more than 0.5 (when dividing current assets by current liabilities)

The latest audited annual accounts (in respect of the financial year end, to a date not more than 18 months prior to the date of application) can be used as a substitute for bank statements, generally only where the entity is an established and substantial limited company/plc with a turnover of more than £5.6m (subject to statutory uprating). Smaller businesses, however, might seek to use annual accounts as additional evidence in answering the three key tests on availability. Draft annual accounts to a date not more than 12 months prior to the date of application/licence check may be sufficient but will be referred to the traffic commissioner who may require further evidence.

Annual financial accounts can be a very useful cross check on an operator's financial health. If audited, they should give an accurate (though historic) 'snapshot'. Businesses with a turnover of less than £5.6m are not required to have their accounts audited Operators, however, with a turnover of more than £1m are advised that your accounts should be prepared by a chartered or certified accountant. Company law allows unaudited financial accounts for businesses with a turnover below £5.6m but the traffic commissioner may not place as much weight on unaudited accounts as those which are independently certified. Where any accounts are relied upon it is

open to the traffic commissioner to seek a further check of finances either by way of a condition upon grant or an undertaking.

It is open to the traffic commissioner to consider financial accounts for all other types of business (i.e. not companies) whether audited or not. This might highlight any insolvent trading positions or unpaid taxes such as PAYE/Ni/VAT etc. and may indicate cash flow problems. Where accounts contradict the impression given by the bank statements the traffic commissioner might ask for further enquiries to be made.

In addition to the types of financial evidence shown earlier, the traffic commissioner may agree that an operator can demonstrate its financial standing by means of a certificate such as a bank guarantee or insurance, including professional liability insurance from one or more banks or other financial institutions, including insurance companies, providing a joint and several guarantee for the operator in respect of the amounts specified above.

The evidence must be those of the economic entity (applicant/operator) established in Great Britain (where an authorisation has been applied for) and not those of any other entity established in any other country or European Member State.

Advertisement

It is your responsibility to advertise your application for major changes to your operator's licence in one or more local newspapers which circulate in the locality of each operating centre included in your application. If you do not do this correctly you may face the extra cost and the delay of having to re-advertise, or your application may be refused. Please read the following advice carefully and call the contact centre on 0300 123 9000 if you have any queries.

- You need to place an advertisement if your application is to add an operating centre, increase the vehicles and/or trailers authorised at an operating centre or for changes to, or removal of conditions or undertakings affecting an existing operating centre.
- When you have filled in the form for the advertisement, tear along the dotted line and send it to a suitable local newspaper. You can download a spare form from www.dft.gov.uk/vosa if you need it.
- An example of a completed advertisement is shown opposite.
- You must send the whole page including the full title and date of the newspaper, which contains your advertisement to the central licensing office (CLO). Photocopies are not acceptable. If you wish to send your application form to the CLO before you insert your advertisement you must send in the whole page containing the advertisement as soon as possible.
- Remember: An application must be advertised within 21 days (before or after) of the receipt of your application by the CLO.** For example, if the application is received on 1 June, the advertisement must appear in a newspaper on a day between 11 May and 22 June.
