

GV80A: Application to change type of licence / Notification of change of transport manager

About this form

You should complete this form if you wish to change the type of goods vehicle operator licence you hold. You cannot apply to change your licence type via operator self service and use of this form is mandatory. You can also use this form to tell us about any changes to your nominated transport manager.

What to do next

Send your completed form, along with any supporting documents to the traffic commissioner at: Office of the Traffic Commissioner, The Central Licensing Office, Hillcrest House, 386 Harehills Lane, Leeds, LS9 6NF

If you are applying to add a new transport manager, you must complete a TM1 form and send the original Certificate of Professional Competence (CPC) or exemption with this form.

Data Protection

The personal information you provide on this form will be used for the purposes of a traffic commissioner's statutory functions. This may include sharing the information you provide with other traffic commissioners, DfT, other government departments and enforcement agencies. Standard licence/application information will also be included in a national register which is available to other member states. Further information is available from the Office of the Traffic Commissioner.

Note: it is a criminal offence to give false information in this application.

- I have provided **original** financial evidence in accordance with Section 13a. I understand that photocopies are not acceptable. ☐

13a) Financial standing for standard licence holders

All applicants wishing to upgrade their licence to a Standard National or Standard International licence from a Restricted licence must provide original evidence of financial standing so the traffic commissioner can assess that you meet the new financial standing requirements, as follows:

Availability

The key test in demonstrating financial resources is whether the applicant or operator has available capital and reserves of an amount equal to the sum specified. "Available" is defined as: "capable of being used, at one's disposal, within one's reach, obtainable or easy to get". The three questions an operator needs be able to answer are:

- how much money can the operator find if the need arises?
- how quickly can they find it?
- and where will it come from?

Name(s) on financial evidence supplied

All financial documents should be in the same name as the applicant or licence holder. In the case of partnerships be in the same name(s) as one or both of the applicants or licence holders. In the case of a Limited Company and Limited Liability Partnerships (LLPs) the funds must be held within the company.

The traffic commissioner may allow documents in a different name, but in the case of an individual applicant/operator this must be supported by a statutory declaration signed by the natural person.

For companies, group and cross guarantees will be referred to the traffic commissioner to consider the merits and will require evidence of the financial standing of the guarantor.

The types of evidence listed below are not exhaustive.

Bank statements

You should provide **original** bank or building society statements covering the last 28 days, the last date of which must not be more than 2 months from the date of receipt of the application. If original bank statements are not available, for instance if you have an online only account, then you may provide printouts that have been signed and stamped by the bank as verification that they show a true reflection of your account. Any such printouts must contain the account holder's name and account number, the name of the bank, and all transactions taking place within the 28 day period.

Building society accounts will only be acceptable if funds can be drawn down within one month.

Unusually large deposits/withdrawals which have influenced the average balance might lead to further enquiries and a request for an explanation from the applicant/operator. The traffic commissioner might ultimately decide to discount these deposits/withdrawals from the average balance. If there is any doubt as to the source of funds this will be referred to the traffic commissioner.

Credit card accounts (in the same name as the application or licence holder) must be supported by original documents, as with bank statements, to show that over the same 28 day period the funds available meet the criteria. Where a credit card account is the sole source of evidence to prove the availability of finance traffic commissioners are entitled to ask why there is no other evidence of banking facilities available.

Overdraft facility

The applicant or operator can supplement the original or certified copies of any bank or building society accounts statements by the use of an overdraft or credit facility. That is an overdraft at their disposal in the sense that there is a balance undrawn before the limit is reached. The facility must be demonstrated by a formal written commitment by the bank, etc. (An offer of such a facility will not suffice.)

The average balance shown in the statements will be calculated, and added to any overdraft or credit facility to show the amount of credit that can be used as proof of financial standing. If the average balance is negative, this will be subtracted from the overdraft limit to find the available finance.

Invoice Finance Agreement

An invoice finance agreement is acceptable, but only if accompanied by:

- confirmation of available balances not drawn down averaged over a 3 month period.
- a copy of the signed agreement from the finance company in which they agree to retain the amount of money needed to meet the definition of financial standing.
- a completed schedule signed on behalf of the finance company.

If you are supplying an invoice finance agreement you must still provide bank statements as detailed above.

Audited accounts – limited companies and Limited Liability Partnerships

These must be certified by a properly qualified person be drawn up clearly and give a true and fair view of the company's assets, liabilities, financial provision and profit or loss.

The items that must comprise the annual accounts are:

- a balance sheet
- that the company is trading profitably (on the profit and loss sheet)
- notes on the account
- a positive ratio of more than 1.0 (when dividing total assets by total liabilities)
- a positive ratio of more than 0.5 (when dividing current assets by current liabilities)

The latest audited annual accounts (in respect of the financial year end, to a date not more than 18 months prior to the date of application) can be used as a substitute for bank statements, generally only where the entity is an established and substantial limited company/plc with a turnover of more than £5.6m (subject to statutory uprating). Smaller businesses have historically produced annual accounts as additional evidence to establish financial standing. However under Regulation (EC) 1071/2009 traffic commissioners will accept annual profit and loss accounts and balance sheets or a statement of an opening balance if they are certified by a properly accredited person.. Draft annual accounts to a date not more than 12 months prior to the date of application/licence check may be sufficient but will be referred to the traffic commissioner who may require further evidence.

Annual financial accounts can be a very useful cross check on an operator's financial health. If audited, they should give an accurate (though historic) 'snapshot'. Businesses with a turnover of less than £5.6m are not required to have their accounts audited. Operators, however, with a turnover of more than £1m are advised that your accounts should be prepared by a chartered or certified accountant. Company law allows unaudited financial accounts for businesses with a turnover below £5.6m but the traffic commissioner may not place as much weight on unaudited accounts as those which are independently certified. Where any accounts are relied upon it is open to the traffic commissioner to seek a further check of finances either by way of a condition upon grant or an undertaking.

It is open to the traffic commissioner to consider financial accounts for all other types of business (i.e. not companies) whether audited or not. This might highlight any insolvent trading positions or unpaid taxes such as PAYE/NI/VAT etc. and may indicate cash flow problems. Where accounts contradict the impression given by the bank statements the traffic commissioner might ask for further enquiries to be made. Applicants and operators are reminded of the need to reply to these further enquiries in a timely manner.

In addition to the types of financial evidence shown earlier, the traffic commissioner may agree that an operator can demonstrate its financial standing by means of a certificate such as a bank guarantee or insurance, including professional liability insurance from one or more banks or other financial institutions, including insurance companies, providing a joint and several guarantee for the operator in respect of the amounts specified above.

The evidence must be those of the economic entity (applicant/operator) established in Great Britain (where an authorisation has been applied for) and not those of any other entity established in any other country or European Member State.
